A freshers' talent hunt, Exploranza 2017, was organised recently to give a platform to the freshers of PGDAV College to showcase their talents. First year students were excited to show off their talents on the stage. The event was inaugurated by politician Varun Gandhi, who gave a motivating speech to encourage students to strive hard and contribute in nation building.

TOGETHER, TOWARDS NATION BUILDING: VARUN GANDHI

At the event, Varun said, "In order to build the nation, citizens participation must be encouraged, which can be done in three steps. Like Morocco, a petition system should be formed whereby peo-

ple can assert their suggestions. Monitoring of government schemes should be done by citizens and the system should be made equal." He also stressed upon the importance of social entrepreneurship. He further added, "We live in an amazing age. Older generations didn't have internet and therefore had to struggle hard to get basic rights. Chipko movement took years to yield results, but last year in Bangalore hundreds of trees were saved because of WhatsApp. It is an unequal world, but it is becoming equal generation by generation."

This year, Exploranza is being conducted at a larger scale. Last year our auditorium was under construction and therefore it wasn't this big. Even this time, the event was scheduled to be held at the college ground, but since it's warm it was shifted to the auditorium at the last moment." The newly elected union of the college also took oath at the event.
